

HOME GIRL WANTS TO JOIN U. S. NAVY

The Helena Independent of a few days ago contained an article relative to two girls of Montana who had made application to Secretary of Navy Daniels to join Uncle Sam's navy. One of these girls was Miss Catherine Calk, a daughter of Mr. and Mrs. Price Calk, of the county. Miss Calk has been making her home in Montana for several years, where she took up a homestead a few years ago and her land is growing more valuable every year. In addition to running her ranch she is also an expert stenographer and is employed by the State Legislature during its sessions. At the close of the last session Miss Calk was given a position in the office of the State Auditor. The other young lady is Miss Elizabeth Tristehunn. These young women are the first in the great state of Montana to offer their services to the Government and we are proud of the fact that one of them is a Kentuckian. At the time of our going to press we were unable to ascertain whether the applications had been accepted or not.

STREET IMPROVEMENT

The alley from Howard avenue to Main street is being put into first class condition by the city. Contractor James Richards has had a force of men at work for several days and as soon as same has been properly rocked it will be rolled. This much needed improvement will be appreciated by a large number of people who use this thoroughfare. A sidewalk will be constructed on the east side of same.

WILL VISIT THIS CITY

The Government has sent out the information that a body of men forming a recruiting party will visit this city May 28th. The object is to interest young men in joining the Navy. The party will shortly thereafter again visit this city in order to examine any who desire to join that branch of the Government service.

NEW DEACONS ARE ORDAINED

Impressive Ordination Services Held at Baptist Church Sunday Afternoon.

The young men recently selected as deacons of the Baptist church in this city were ordained Sunday afternoon. Rev. Motley, of Winchester, preached a most excellent sermon as did also Rev. J. W. Black, of Morehead. Rev. J. S. Wilson led in the ordination prayer. The service was most impressive, and the putting at the head of the church of these young men should instill new life and vigor into the business affairs especially of the institution. The following gentlemen were ordained: Messrs. J. C. Graves, J. W. Hedden, Jr., G. C. Anderson, E. A. Flynn and Tandy Chenault. With the hearty co-operation of the membership these gentlemen will be able to accomplish great good for the advancement of the work in this community.

EGGS VERY HIGH

Mr. G. D. Sullivan, the local poultry man, told us today that eggs were higher now than he had ever known them to be during the month of April in the twenty-one years he has been in business. He said he once shipped a carload to New York and received 24 cents per dozen for them but that eggs were now bringing 30 to 31 cents per dozen in this city.

Lost or Misplaced.

Some time last fall or winter someone reated my electric vacuum cleaner and has forgotten to return same. I know this is simply an oversight but as I have had several calls for same this spring I would greatly appreciate it if the person who has it would either return it or phone me at the office of the Kentucky Utilities Co., Phone 4, and I will send after same.

TOO MANY LOAFERS

A census of the saloons of Lexington was taken Monday by the Herald of that city and it was found that 557 men were idling in the barrooms in the middle of the afternoon and 164 contributing to their idleness, by selling them the liquor that increases their desire for wanton waste of time and energy. There were 105 saloons visited. With the farmers of the country needing help and willing to pay good wages it looks like some steps should be taken to make these loafers get busy. In a city as "wet" as Lexington it took a paper of real courage to make public such a condition of affairs. Similar conditions exist in every "wet" city in the State.

FIELDS SENDS SEED

Congressman W. J. Fields on Friday, of last week sent us a large sack of garden seed and the supply lasted only Saturday and Monday. If the number of people who called for seed will plant and raise what has been given them we feel sure the high cost of living will receive quite a jolt. The sack of seed sent us by Senator Beckham and advertised in our last issue lasted less than six hours. We are under many obligations to these gentlemen for remembering us and we are only too glad the opportunity was given us to distribute this seed.

ROAD WORK STARTED

Contractors Tipton & McAllister last week opened up a fine quarry on the farm of Mr. Geo. W. Anderson, Sr., on the Levee pike and have set their steam drill, rock crusher, etc., and have started crushing the rock for the resurfacing of the Levee turnpike. This work is being done under the supervision of the State Engineer from the Road Department who is on the job.

CONCLUDES LECTURE

Mr. D. L. Pendleton finished his lecture, "War and Prophecy," Sunday night at the Christian church, a large audience being present to enjoy same. Mr. Pendleton started his lecture Sunday, the 14th, but did not have time to complete same so postponed it until Sunday evening. He is a deep thinker and scholar and his audiences were much impressed with his remarks.

BLIND MAN DIES

Mr. Thomas M. Johnson died at the home of Mr. Joe Swartz in this city Monday after a long illness. Mr. Johnson had been blind for forty-seven years. His body will be taken to Lexington tomorrow for burial. Mr. Johnson was a widower, his wife having been dead for several years.

RED CROSS ORGANIZED

Branch of National Organization Is Formed in This City Monday Afternoon.

The Montgomery County Chapter of the American Red Cross Society was organized in this city Monday afternoon with ten charter members. Col. A. W. Hamilton was selected as Chairman, Mrs. Robert H. Winn, Vice Chairman, Mrs. Mary Crawford Bassett, Secretary and Mr. R. H. Lane, Treasurer. A campaign for membership will be inaugurated at once and Mrs. George Hunt, of Lexington, will come to this city and address those interested in the work at a meeting to be held at the Rest Rooms Thursday afternoon at 2:30. We wish our people would show their patriotism by joining in this great movement. We all should be glad of the opportunity to share in this great work. Won't you make a special effort to be present Thursday afternoon at 2:30?

Don't be a slacker on May 6th. Go to Sunday School.

CAPTAIN STROSSMAN

Mr. W. H. Strossman, Jr., was selected unanimously as Captain of the Mt. Sterling Minute Men at the meeting of that organization held last Tuesday night. Mr. Strossman's selection could not be improved upon.

CONCLAVE AT COVINGTON

The Annual Conclave of the Grand Commandery of Kentucky Knight Templars will be held at Covington, Ky., May 16th and 17th. Quite a number of Knight Templars here who belong to the Grand Commandery will attend the meeting.

GOVERNMENT BUYS COLTS

A government official accompanied by a veterinary was in this city Monday taking up the three-year-old colts by the government stallion Young Bill. The price paid was \$150.00 per head. Young Bill is now in charge of Mr. B. F. Herriott.

BUYS NICE HOME

Dr. R. E. May has purchased the handsome bungalow of Dr. Ollie Clarke on North Sycamore street and will move there shortly to reside. This is one of the prettiest homes in the city. Price private.

ATTENDS CONVENTION

Mr. John W. Jones is in Louisville this week attending the convention of the Kentucky Association of Optometrists.

PUSHING STREET WORK

The Carey-Reed Company has quite a number of men at work on the streets to be improved this year and are rushing the work as rapidly as possible. In addition to the several teams now used the company has sent up from Lexington a large auto truck to use in hauling sand, cement, rock, etc., which will facilitate the work greatly. The large concrete mixer will be started Wednesday morning on Sycamore street. The company has been greatly handicapped owing to its inability to get supplies. Mr. F. P. Solomon, who is in charge of the work, says that every effort will be made to complete the work as quickly as possible.

RACES THIS WEEK

The running races begin at Lexington Saturday of this week and from reports this meeting will be one of the biggest ones ever held in that city. More than seven hundred horses are at the track and as the purses are the largest that have been offered for several years there are more horses of real class to contend for them than in many years. Quite a number of people from this city will attend.

GOVERNMENT PLANTS SHRUBS AND FLOWERS

A landscape gardener with a force of men has been busy for several days setting out trees and shrubs on the beautiful lawn of the Postoffice building. Quite a number of people think the shrubs, etc., will add to the attractiveness of the lawn while others think the beautiful bluegrass lawn could not be improved upon.

SEND HORSES TO LEXINGTON

Mr. Nat. B. Young, Jr., last week sent three trotting bred colts to Lexington to Trainer Ed. Willis to train for him this summer. Mr. Young has had splendid luck with the youngsters he has handled in the last few years. Mr. J. R. Magowan also sent one colt to the same trainer.

YOUNG COUPLE ARE MARRIED

Miss Mattie Pangburn and Mr. J. Courtney Horton are Married Monday Afternoon.

Miss Mattie Pangburn, youngest daughter of Mr. and Mrs. C. G. Pangburn and Mr. J. Courtney Horton, son of Mr. and Mrs. James Horton, were married at the Pangburn residence in this city Monday afternoon at 3:30. Rev. Clyde Darsie, of the Christian church officiating. Only the immediate relatives and a few intimate friends witnessed the ceremony. Following the ceremony the happy couple motored to Lexington, from which city they will leave for a bridal trip of a ten day's duration to the cities of the North and East. Upon their return they will go to housekeeping in the handsome home of Mrs. Mary Wood Rice on Samuels avenue.

Miss Pangburn is one of the prettiest girls ever reared in our city and in addition to her beauty possesses a disposition of rare sweetness and a charm of manner that has endeared her to countless friends.

Mr. Horton is one of the city's most popular young men. He is connected with the government postal service and also with the Farmers Tobacco Warehouse Co., of this city. Bright, energetic and having the pleasing faculty of making and retaining friends he is one of the best known young men of the county.

Beautifully engraved wedding announcements have been received by friends and the Advocate joins in tendering best wishes for a long and happy life.

ANDERSON SELLS LAMBS

Mr. Grover C. Anderson last week sold to Mr. Oscar M. Chandler, of Bath county, the lambs from 700 to 1000 ewes at \$13.50. Deliveries to be made in June, July and August. Mr. Anderson also sold to Mr. T. M. Greene representing Mr. Leslie Combs, of Fayette county, 3000 pounds of wool at 55 cents.

GREAT IMPROVEMENT

The owners of the building lots on the lower west side of Samuels avenue had a force of men at work there last week tiling the branch that runs through the lots and filling them in. A twenty-four inch tile was laid and connected and is amply sufficient to carry a much larger volume of water than the biggest flood-tide of the stream. These lots are the most desirable building sites in that section of the city and were recently sold at public auction. One cottage is under course of construction; that of Rev. J. L. West, and plans have been drawn for two others to be built by Luther Redmon and Dr. C. W. Compton. The tiling of this branch, which has been a disease-

breeding spot for years, is of inestimable benefit to that entire neighborhood and greatly enhances the value of all property in that section.

DIES IN LOUISIANA

Relatives here received news a few days ago of the death of Mrs. Mattie Breen Bass, wife of Mr. B. A. Bass, which occurred in Texas, where she had gone from Baton Rouge, La., for her health. The body was brought to this city for burial, arriving here Saturday. Mrs. Bass was about thirty years of age and a daughter of the late Claude Breen, of this city. She resided here with her mother, following the death of her father until about ten years ago when they went to Louisiana to live and where deceased was married to Mr. Bass. Besides her husband and mother, she is survived by two small children. Mrs. Bass was a grand-daughter of Mrs. Callie Breen, of this city, and a niece of Miss Jennie Breen. Many friends here at her old home will learn with deep sorrow of her death.

BANKS WILLING TO HELP

The four banks of this city have signified their willingness to help the farmers finance their crops this year as will be seen from the statement which follows:

To the Farmers of Montgomery County:

The President has told us that while all may not join the ranks yet every citizen is a soldier in this war, and has a duty to perform; that the first call is upon the farmer, and upon him rests in a large degree the final responsibility of winning this struggle. While our armed forces may not be actually engaged for many months to come, yet America is looking to every farmer and expects him to do his duty and to perform it at once.

The world's food reserve is very low. The shortage of food stuffs is distressing. The situation must be met by an unparalleled and extraordinary increase in the production of food supplies. The man who tills the soil and does his part toward producing this increase is rendering a service just as patriotic as the soldier who fights in the trenches. Within the next few months to come the farmer patriot must wage his campaign for his country. We take the liberty of calling your attention to this unprecedented food shortage; and while not presuming to be officious beg to make the following suggestions:

FIRST: It is necessary that the utmost care and economy should be practiced in every home to conserve the present stock of foods. Waste-fulsness must be avoided as it increases prices and imposes hardships on those not able to bear them.

SECOND: Farmers and handlers of stock should not be tempted by present high prices to sell their breeding stock, as the supply is alarmingly reduced. Make an effort to raise more hogs, cattle and sheep.

THIRD: While it is proper that the legitimate operations of the community should be hampered as little as possible, and while we are ready and willing to extend proper facilities to our customers for all legitimate enterprises, we advise against ventures of a speculative character.

FOURTH: We urge every farmer to increase his acreage of crops; especially those which may be used for food for man.

FIFTH: The value of a family garden cannot be over-estimated. Every household should raise a garden, devoting particular attention to corn, potatoes, beans, onions and cabbage.

SIXTH: The poultry yard must be developed and increased in every way possible.

SEVENTH: Care should be used in the selection of seeds of all kinds so that the efforts of the farmer and the gardener may not be lost through the use of poor seed.

EIGHTH: Those having a surplus of good seed corn should let the fact be known and assist their neighbors by providing them with the same at reasonable prices. There should be co-operation between neighbors in the matter of help and teams. This is not only neighborly but will be fruitful of good results.

NINTH: Housewives should recognize the necessity of the conservation of food products and the preservation of surplus supplies of the orchard, garden and farm.

TENTH: Don't wait to organize. Let each man act as an individual and the time to do it is NOW.

Assuring our friends and patrons of our desire to help and co-operate in every way possible that makes for the good of our country, we submit the above suggestions, appealing to your patriotism and good citizenship.

An exchange rises to suggest that a regiment be recruited from the ranks of the jingo press. That editor's bump of humor makes a dent in his skull.

American dollars are at a discount in Spain. But this won't last long. Some enterprising yankee will buy 'em up and bring 'em back and crib the discount.

An exchange speaks of a recent meeting as "a gathering of noted agriculturists." The farmers, of course, were at home preparing for crops.

We are told that paper money harbors millions of microbes. But shove it our way—we're not a bit skeered.

THE CONFEDERATE REUNION

The meeting of the Confederate Veterans at Washington in June will be a historic event of nationwide concern.

The Gettysburg reunion will long be remembered. It demonstrated the unity of the American people, even to the most skeptical, and had an immediate effect on public sentiment throughout the country.

Today America wants to make plain to the world that, whatever efforts are made to show dissensions among us, or to assert higher claims to loyalty for other flags or other institutions, are made in vain. Here there is a unity in diversity, won on many a hard-fought field, that inspires all citizens in their devotion to a common country.

The memory of our civil conflict deepens this devotion. The deeds of these four years are the glory of a united people, and the flag of the Union is all the brighter and more beautiful because of the record of these veterans and the hosts that marched with them under the Confederate banner. Today we are stronger because of that conflict, for the stories of those battlefields and campfires are the common heritages of both sections.

It is a long way from Appomattox to Washington City, but the men who wore the gray will in June receive their heartiest welcome from the men who wore the blue, and the whole nation will be their guard of honor.—Louisville Post.

A USEFUL SACRIFICE

Eagerly, nay, avidly, we seek compensations material and spiritual for our participation in the great war. So well known and so terrifying are the penalties of participation, that only the contemplation of undiminished liberty of ideal and action; untarnished honor and reputation; recognized courage and fidelity to nobility of purpose and aim, seem in any fashion to repay the loss and the grief which war entails. There are, however, lesser compensations, which coupled with the cardinal articles of civilization's faith as noted, will go far toward helping us to bear the pain and the bereavement which stare the Nation in the face.

The President, with the clear vision which has characterized his attitude toward the war from the outset, has called upon the people in the most definite manner for the service that each is able to render toward the common weal. The duty of all men and women has been pointed out so clearly that all wishing to serve have the means of service virtually in hand. Every section may take the President at his word; and proceed to the country's service with open minds and stout hearts.

To no section so much as the South do the President's words mean great change and something of immediate sacrifice. The loyalty of the South is beyond all question; and there are few to doubt that as the South is ready to pour out its blood in defense of humanity, so the South equally is ready to undertake industrial and agricultural revolution in order to do its share in the coming months or years that may be necessary to push back within their own boundaries the Germans who threaten the continued existence of all nations not in agreement with her philosophy.

And if—there being very little doubt on the score—the South devotes its energies diligently to the Nation's need, raising foodstuffs at the expense of a considerable acreage of cotton, what a lesson will be learned by the South! In after years what a noble return of material benefit will accrue from the South's devotion to the common cause, even at the expense of some millions of immediate wealth!

Preachers and teachers have been insisting for years upon diversification of crops as the sine qua non of continued financial and agricultural progress in the South. Here is opportunity for service which bears all the indicia of personal opportunity as well. When the South begins to feed itself and to sell food to the rest of the world, then the South will see the beginning of its most hopeful and forward-looking industrial era. It will be no shame to the South to consider these possibilities when complying with the President's plea.—Louisville Times.

Experience Is the Test of Tires

Every tire claims to be the lowest-cost-per-mile tire.

If you knew the experience of any considerable number of other tire users,

—that would help you decide which tire makes good on the claim.

We don't know about other makes of tires, but we do know

—that motorists who have used United States Tires continue to use them;

—that more and more motorists who used other makes of tires are turning to United States Tires.

These two facts are proved by the amazing sales increases of United States Tires

—sales increases that are vastly greater than even the greater natural increase in the number of automobiles this year over last

—which shows where tire service is.

THE READY FELLOW

The world's against a fellow
When he leans against the world,
When he shows a streak of yellow
When he keeps his banners furled;
When he lets his bruises stop him
And he whimpers in despair,
The world is apt to drop him.
For the men who do and dare.

The world is for a fellow
When a fellow's for himself,
When he doesn't whine or bellow
But keeps hustling for his pelf.
When he takes misfortune's bruises
With a grin and bears the pain,
And though now and then he loses
Comes right back to try again.

The world is far too busy
To play favorites with men,
To pause to talk "where is he?"
Who is needed there and then,
When it has a task worth doing
It selects the first man there
Without seeking or pursuing
One to come and do his share.

It's the fellow that is ready
That the world will always use.
The eager hand and steady,
There's no time to pick and choose,
There's no time to seek another
Who should be there, but is not,
For the world will grab the brother
Who is Johnny on the spot.

SICK WIFE'S STORY SURPRISES MT. STERLING

The following has surprised Mt. Sterling: A business man's wife suffered from dyspepsia and constipation for years. Although she dieted she was so bloated her clothes would not fit. ONE SPOONFUL buckthorn bark, glycerine, etc., as mixed in Adler-Lika relieved her INSTANTLY. Because Adler-Lika empties BOTH large and small intestine it relieves ANY CASE constipation, sour stomach or gas and prevents appendicitis. It has quickest action of anything we ever sold. W. S. Lloyd, Druggist.

HEALTH OFFICER MEANS BUSINESS

The following communication is addressed by Dr. J. A. Shirley, local health officer, to the citizens of the city and county, and should prove of interest and value:

"The health laws of the Commonwealth makes it the duty of the Health Officer to see that a "quarantine flag" is placed in every house, be it residence or tenement,

where contagious or infectious disease is reported reliably to exist, and I would have you know that not the least discourtesy is intended to anyone, but only that some dear one shall be saved an untimely grave. I shall endeavor to perform this unpleasant duty impartially and kindly."

ANNOUNCEMENTS

We are authorized to announce

E. B. Quisenberry

as a candidate for the Democratic nomination for County Court Clerk, of Montgomery county, subject to the action of the State primary, August 4, 1917.

MR. E. B. QUISENBERRY

Mr. Earl B. Quisenberry authorizes us to acquaint our readers with the fact that he has an ambition to serve the people of his native county, in the important capacity of County Court Clerk and will therefore submit his claims to his fellow-Democrats at the approaching primary, Saturday, August 4, 1917.

Mr. Quisenberry is one of our most dependable party-workers and every campaign since he has reached his majority, has found him in the forefront effectively and unceasingly fighting the battles of his party. If nominated and elected, Mr. Garnett R. Chennault will be his deputy. Both are members of old and substantial families, are competent young men of sterling worth and character and enjoy the confidence and esteem of a legion of friends.

If entrusted with the duties of the office, they promise to make efficiency and courtesy their watchwords and to so discharge every duty as to merit the approval of the people.

We bespeak for the claims of this ticket the serious consideration of the Democrats of the county.

One Senator, in explaining how the bill to put a tax of one cent a ton on coal mined, was killed Saturday, is reported to have said, "We waited until the hog was fat and then stuck him." As a matter of fact it was the farmers of the State who were knifed.

The Elizabethtown News has the right idea. We should raise all the food-stuffs we can, eat all we can of them and what we can't, we should can.

RUMOR CORRECTED

Mt. Sterling, Ky., April 19, 1917.
Editor of The Advocate,
Mt. Sterling, Ky.

Dear sir:

On account of the unfortunate rumor which has been circulated around Mt. Sterling connecting our names, and to the effect that we had recently married, will you be kind enough through the columns of your paper to permit us to emphatically deny the truth of such a report; doubtless growing out of the thoughtlessness of some of our friends in thus undertaking to play a practical joke upon us. There is no basis for such a report

other than the fact that we recently paid a short visit to the home and the family of Mr. Callis without any thought or intention of marrying upon the part of either of us. Thus a wholly innocent pleasure trip has unfortunately been made the basis of a great deal of gossip which places us, and especially Miss Prewitt, in a very embarrassing position, and we take this opportunity of thus publicly announcing the falsity of the rumor and earnestly hope that this communication will forever set at rest all further gossip on the subject.

A CARD

Mt. Sterling, Ky., Apr. 23, 1917.
To the Voters of Montgomery Co.:
In coming to you with my announcement as a candidate for the Democratic nomination for the office of Clerk of Montgomery county I am aware of the responsibilities of the office and believe I can bring to it a high standard of efficiency if maintained. It is nothing but fair that the nomination for this office to pass from one to another of those who can meet its requirements. I have labored unceasingly for the success of the party. If this nomination should come to me Mr. Garnett R. Chennault will be my chief deputy. I have spent my whole life in this county and believe I am acquainted with most all of our people and am glad to submit my ambitions to the unbiased judgment of the people. After considering my claims if you feel that I can bring to the office the character of business it requires I shall be very grateful for your vote and influence. Respectfully yours,
Earl B. Quisenberry.

TROOPS ASSEMBLING AT LEXINGTON

The State troops are assembling at the mobilization camp recently established at Lexington. The beautiful Lansing farm was purchased and is now at the disposal of the government. Two companies are now mobilized and eleven more will be there before the week is over. The establishing of this great camp at Lexington means a great deal to the city and all Central Kentucky should be proud of the progressive citizens of that city that made it possible for the camp to be located there.

BONDS OVER-SUBSCRIBED

The first American offering of war securities in any form amounting to \$200,000,000, has been heavily over-subscribed, according to officials. The bonds bear 3 per cent interest. The formal offering of the bonds was only before the country for three days.

BERNHARDT DYING

Madam Sarah Bernhardt, the noted French actress, is dying at a New York hospital. She is possibly the best known actress in the world.

WILL SAVE DAYLIGHT

A movement is on foot in Lexington to place that city among the first in the United States to adopt the "Daylight Saving Plan." The school board has voted its belief that the plan is practical and a large number of merchants and business men approve the plan. The Mayor and City Commissioners will be asked to lend their support to the plan also. The traction company will also be asked to join in the movement. The plan is beginning May 1st to advance the clocks one hour. This will be of great benefit to workers as one more hour of day light will be given them for pleasure or recreation. It is practically certain that the plan will be adopted in Lexington and also in other nearby cities in Central Kentucky.

PARIS PROUD OF U. S.

More than forty thousand United States flags are waving in the streets of Paris, France. The stars and stripes were flung to the breeze from Eiffel Tower Sunday and saluted by twenty one guns. This marked the opening of "United States Day" in Paris. A great and enthusiastic crowd was present for the ceremonies.

O'Connell's Shoe Laboratory.

STUDENTS ARE LOYAL

About thirty per cent of the students of the University of Kentucky have left the institution owing to the "back to the farm" movement or for enlistment in some branch of the United States service for national defense. It is expected that a great many more students will join in the movements. Full credits will be allowed the students for the remainder of the present term who are engaging in work of a patriotic nature as outlined in a recent address by President Wilson.

Fewer Eggs are required with ROYAL BAKING POWDER

In many recipes the number of eggs may be reduced with excellent results by using an additional quantity of Royal Baking Powder, about a teaspoon, for each egg omitted. The following recipe is a practical example:

Chocolate Sponge Roll

1 1/4 cups flour 2 tablespoons melted shortening
1/2 teaspoon salt 1/4 cup hot water
1 cup sugar 1 teaspoon vanilla
2 eggs 2 teaspoons Royal Baking Powder

The old method called for 4 eggs and no baking powder

DIRECTIONS—Sift flour, baking powder and salt together three times. Beat whole eggs. Add slowly sugar, then boiling water slowly; add next vanilla, melted chocolate and melted shortening, without beating. Sift in dry ingredients, and fold in as lightly as possible. Pour into large baking pan lined with oiled paper, and bake in slow oven twenty minutes. When done, turn out on a damp, hot cloth, spread with white icing and roll.

Booklet of recipes which economize in eggs and other expensive ingredients mailed free.

The Choice of All Motorists

In no matter what company you find yourself with a Buick valve-in-head, you are impressed with the fact that all have dignified respect for your choice of a motor car, for the reason that it is generally accepted as the car of first choice by nearly every owner regardless of the car he drives.

Their inability to get a Buick when they bought their car is the excuse of many. The world known truth that the Buick is a car of unusual beauty and refinement and that the valve-in-head is the correct principle of gasoline engine construction is responsible for the complete approval of the general public enjoyed by the Buick valve-in-head.

**FOR EVERY
EFFECT**

THERE MUST BE A CAUSE

Just to say that J. & M. Shoes are the best here proves nothing. We must have the reasons as specified below.

J. & M. Shoes are never pulled green from the lasts. They must stay on the lasts twenty-one days at least to ripen and retain their shape.

J. & M. Shoes are cut for right and left feet and not pulled into rights and lefts. These two reasons are worth considering; other reasons next week. J. & M. shoes cost more than any shoes sold here wholesale and retail at the same price as other shoes.

Of course there are folks who don't care whether shoes hold their shape or not just so they wear.

Of course these people don't want J. & M. Shoes because J. & M. Shoes stand for more than wear.

At Last—A One-Adjustment Cream Separator

BEFORE you buy any cream separator, come in and look at the Primrose. One adjustment is all that is necessary to keep it in perfect operating condition at all times. This adjustment is a simple one for keeping the bowl at the correct height—an adjustment that you or your wife can safely make, whenever it's necessary.

The adjustment is made from the outside of the separator by either raising or lowering the bearing containing the hardened steel point, upon which the spindle revolves. A slight turn with a screwdriver, perhaps once a year, does the work. The Primrose is a well-constructed, close-skimming, durable cream separator. It will make a saving of \$10.00 to \$15.00 per cow in your herd every year. It is made in four sizes to separate 350 to 850 pounds of milk per hour, or from about 40 to 98 gallons. Ask for a catalogue giving a complete description, or, come in and look over the Primrose yourself.

SHOW YOUR COLORS

How many American flags are floating to the breeze in this town? There should be more. They should be shown in every home. They should float from every building. They should be in evidence everywhere. It is not seemly that we go about the streets shouting our Americanism into every ear, but if proper and right that we show our own colors by displaying the national colors. And the largest flag of all should be proudly flown

from the municipal building.

War is hell, but now that we are into it we must do our best to make it hell for the other fellow.

KENTUCKY'S FOURTH GO-TO-SUNDAY-SCHOOL DAY MAY 6TH.

When the Kentucky Sunday School Association suggested that May 3, 1914 we observed as a state Go-To-Sunday-School Day, when the work of the Sunday Schools of the state should be presented every where, and all the Sunday Schools asked to try to double their attendance on that day, it did not realize that it was starting a movement that in so short a time would reach all over the entire country.

The slogan for that first year was "Wanted—One Million People in the Sunday Schools of Kentucky on May 3, 1914." Everywhere the people heartily co-operated, the newspapers thoroughly advertised it, all kinds of invitations were sent out, parades and house visitations were used. Governor James B. McCreary issued a proclamation, that was the first ever issued by a governor of any state, calling the people of the state and all visitors to Sunday School. President Woodrow Wilson sent a telegram to Rev. Geo. A. Joplin, the General Secretary of the Association endorsing the movement and saying "The Sunday School Lesson of tomorrow is the code of morals of tomorrow. Too much attention cannot be given to the work that is being done by the Sunday School teachers in the Sunday Schools." The result was that the number of people in Sunday School in Kentucky that day was double what it had ever been before, and later reports showed that forty thousand people were enrolled as permanent members of the Sunday School.

The success of the first effort was so great that the Kentucky Sunday School Association decided to make the day a permanent part of the work of the Association in developing Greater and Better Sunday Schools for a Greater and Better Kentucky. The second year the million people came to Sunday School and many more of them became regular attendants. Then the slogan was enlarged to "A Million People in Kentucky with the Sunday School Habit."

In the meantime other states had been watching Kentucky and seeing the success attained, have followed in appointing such days for their states. The following states have already observed such days, Alabama, Arkansas, Florida, Georgia, Delaware, Maine, Michigan, Mississippi, Nebraska, New Jersey, New Hampshire, North Carolina, South Carolina, Tennessee and the Providence of Sas Katchewan in Canada.

This year Kentucky will hold its fourth Go-To-Sunday-School Day on May 6th and the same day will be observed by Virginia, Idaho and Washington. The International Committee has appointed a committee to consider a plan for making such a day part of the program of the work of the International Association suggesting that a day might be selected that could be observed by all the states at the same time.

Every Kentuckian should be proud of the fact that this movement, which has attracted so much attention, and has added thousands of people to the Sunday Schools of America, originated in Kentucky, and should respond to the call that is now being issued to attend the Sunday School of his choice on May 6, 1917.

Notice!

Notice is hereby given that the undersigned, now serving a sentence for uttering a forged writing, under judgment rendered at the January term, 1915, of the Montgomery Circuit Court, will apply for a parole at the June, 1917 meeting of the Board of Prison Commissioners. (38-8t) Elijah Bonduant.

ROLPH-ROE WEDDING (Stamford, Nebraska, Star)

A pretty home wedding occurred at the beautiful residence of Mr. and Mrs. B. W. Roe in Stamford, Tuesday evening, March 27, at 8 o'clock, when their daughter, Lena, was married to Carl P. Rolph, of Mt. Sterling, Ky. The bridal party entered the room to the strains of Mendelssohn's wedding march played by Mrs. R. H. Rennecker. Lyman Howe was best man and Miss Jennie Gorham, of Franklin, acted as bridesmaid. The bride was dressed in a rich cream silk and carried a bouquet of yellow roses. The rooms were beautifully decorated, the color scheme being pink and white. Pink roses and white wedding bells formed the principal part of the decorations. A large number of the bride's friends were present. Immediately after the ceremony an elaborate wedding supper was served. The groom is the oldest son of Jarvis T. Rolph, of Mt. Sterling, and is a young man of excellent character. The bride is the youngest daughter of Mr. and Mrs. B. W. Roe, pioneer residents of Stamford, and a sister of Mrs. Shirley Mason, of Mt. Sterling. She is a charming young woman and has been prominently identified with the church and social life of the community. Mr. and Mrs. Rolph will be at home in Mt. Sterling after April 20. The Star extends felicitations.

MODERN MAYSVILLE ST. COTTAGE FOR SALE AT PUBLIC AUCTION SATURDAY, MAY 5

2 O'CLOCK P. M.

As agent for Dr. and Mrs. P. K. McKenna, I will offer for sale at public auction, on the premises, on the above date, the modern cottage residence and lot. The house is a convenient cottage, containing a large hall, suitable for sitting room, parlor, family bed room, guests room, dining room, kitchen and rear bedroom, and one of the most modern and up-to-date bath rooms that could be built. The house is in excellent condition, fitted throughout with gas and electric lights and heated by gas. The roof is good, finish throughout the house very best material and all rooms nicely papered and painted. There is an excellent cellar under the house, and fruit and vegetables can be kept throughout the coldest weather without any danger of freeze. An excellent cistern, with good pure water at all seasons. The lot is large, being about 60 feet front on Maysville street and running a depth of about 300 feet. There is a beautiful front lawn, with a large yard and rich garden spot in the rear and a driveway on the southern side of the residence.

In offering this residence for sale, I feel sure that I am giving to the people of this community a very rare opportunity to buy a nice, neat modern cottage under the hammer. It is seldom indeed, that one has an opportunity to purchase a home on Maysville street under the hammer and if you are in the market for a home or for a piece of property that is a good investment, and one which will increase in value as the years go by, you need look no further than this. Located on the best residence street in the city, within one minute's walk of churches, business section, theatres and schools, no better piece of property has ever been offered to buyers in Mt. Sterling, Ky.

TERMS MADE KNOWN ON DAY OF SALE

and possession will be given within one week from sale day or sooner if desired by purchaser.

I will be glad to show the property to prospective purchasers, or you can see the residence by calling on the owners who reside in the property.

FORD THE UNIVERSAL CAR 320,817

Have been built and actually delivered to retail buyers since August 1, 1916.

These figures—320,817—represent the actual number of cars manufactured by us since August 1, 1916, and delivered by our agents to retail buyers.

This unusual fall and winter demand for Ford cars makes it necessary for us to confine the distribution of cars only to those agents who have orders for immediate delivery to retail customers, rather than to permit any agent to stock cars in anticipation of later spring sales.

We are issuing this notice to intending buyers that they may protect themselves against delay or disappointment in securing Ford cars. If, therefore, you are planning to purchase a Ford car, we advise you to place your order and take delivery now.

Immediate orders will have prompt attention.

Delay in buying at this time may cause you to wait several months. Enter your order today for immediate delivery with our authorized Ford agent listed below and don't be disappointed later on.

PRICES:
Runabout \$345, Touring Car \$360, Coupelet \$368, Town Car \$385, Sedan \$405.

WOODFORD STOCK FARM SEASON 1917 STERLING CHIEF 2079

In offering the services of Sterling Chief to the public, I do so with the belief that rarely, indeed, is so good a horse offered at such a reasonable fee. He has the breeding, the individuality and has proven his ability to produce colts of the highest class.

ANCESTRY

Sterling Chief 2079, is by Bourbon Chief 976, whose standing and achievements in the saddle horse world are so well known that it is not necessary to dwell upon it here. First dam is by Forest Denmark 153, who sired fifty-two colts that sold for an average of \$850. Probably no horse in saddle horse history has turned out more high-class horses. Second dam was by Blue Jeans 3. This second dam was a full sister to Roscoe who sired, during three years in this country, 8 colts that sold for an average of \$1250. He himself, sold for \$300.

WHAT HE IS

Color a rich dark chestnut, two white feet and star, 15.3% hands high, weight 1150 pounds. A horse of size and substance. Has best of bone and foot. Motion is absolutely true and swift and I have never had him in company with horse or mare that could throw dust in his face. Action is perfectly balanced in slow gait, trot, rack and canter. Disposition could not be better. Is a perfectly natural tall horse, this feature of importance to breeders, has never been worked upon in any way, and he imparts it along with his other good traits to his offspring. He has the finish, type and conformation that a stock horse should have.

HIS PRODUCE

He is the sire of Thornton Chief that sold for the hammer recently for \$1500, he being the sire of the famous mare Elsie Thornton, winner of first premium in \$600 Pacific Coast Gaited Horse Futurity at Panama Pacific Exposition. This same mare in first premium in winning form in Missouri Saddle Horse Futurity, Missouri State Fair. Thornton Chief won first premium in champion sale class at Springfield. Sterling Chief is the sire of Pierpont, winner of first premium which was \$1000, in the most important class at a First International Live Stock Exposition, held at Havana, Cuba. Point sold for \$1000 thus paying for himself at one show.

Sterling Chief is the sire of Sterling Duke, the gelding that sold for \$2500; winner of first premium at Springfield, O., Use Show, also first at Rochester Industrial Exposition. Sterling Chief the sire of Angelus Butterfly, (Bob Lloyd mare) winner of first premium State Fair Stakes at California State Fair. Sterling Chief is the sire of Greenbriar Lady, winner of Sweepstake Gaited Class, also Fine Harness Class at Fairfield, Iowa. He is the sire of Royal Chief Denmark that sold for \$1000; of W. C. P. that sold for \$1000; Sterling Bourbon the gelding that sold for \$1300; the Turkey gelding that sold for \$1200; the mule, that sold for \$300; Tobacco that sold for \$500 as a weanling, etc.

His colts make excellent business horses, having intelligence, being easily trained and taking to the gait rapidly.

BUSINESS MEN'S CLUB RECEIVES GOVERNMENT LETTER

Secretary John S. Frazer of the Business Men's Club, is in receipt of the following letter:

"The war in which we are now engaged is a war of economic resources. It is absolutely essential to the successful prosecution of the war that everyone make his or her contribution to the economic welfare of the country. The production of food is a vital and present duty resting on every man and woman who can help it along. Without food workmen can not work, nor can armies fight.

"THE FOOD SUPPLY OF THE COUNTRY MUST BE INCREASED, and I urge upon you to cooperate in every way with the Department of Agriculture in its campaign to increase the crops of the country. Will you not take this subject up at once with the membership of your association, pointing out to them the needs of the situation and urge immediate action? I suggest that every organization should have a committee on the production of foodstuffs and that the assistance of women's organizations be enlisted in the campaign.

"I need not point out that the planting season is at hand, and that any action to be effective must be taken at the earliest possible moment. In the United States, as in the warring countries of Europe, the effects of this struggle will be felt by everyone and economic preparedness will greatly lessen the burden that we must carry.

Very truly yours,
WILLIAM C. REDFIELD,
Secretary.

Why Suffer?

Mrs. J. A. Cox, of Alderson, W. Va., writes: "My daughter... suffered terribly. She could not turn in bed... the doctors gave her up, and we brought her home to die. She had suffered so much at... time. Having heard of Cardui, we got it for her."

CARDUI

The Woman's Tonic

"In a few days, she began to improve," Mrs. Cox continues, "and had no trouble at... Cardui cured her, and we sing its praises everywhere." We receive many thousands of similar letters every year, telling of the good Cardui has done for women who suffer from complaints so common to their sex. It should do you good, too. Try Cardui. E 77

Rall's King Emerald

In offering the public the services of Rall's King Emerald, I do so confident that he is as well bred as any stallion registered in the American Saddle Horse Breeders' Association. He is by the undefeated show horse, Golden King. The dam of Rall's King Emerald is by Emerald Chief, winner of the World's Fair Prize, St. Louis. His second dam is by Wilson's King, out of a Kentucky Chief mare.

He is a Golden Chestnut, 16 hands high, weighs 1235 pounds and goes beautifully all the gaits. He trots as few horses can trot. He has a natural springy, elastic flat footed walk, which characterizes the Golden Kings. His bone, his substance, his finish will add to the value of any mare mated with him. In breeding to this horse you do not experiment as he has proven himself to be an extra good breeder and sire. Why take chances on untried horses when you can breed to one that has already demonstrated his ability?

He will make the season of 1917 at the above named farm on the Maysville pike 2 1/2 miles from Mt. Sterling, for the reasonable fee of

\$15.00 TO INSURE A LIVING FOAL

Rollo 78469

This beautiful dark gray Percheron Stallion was sired by the imported percheron stallion Black Paris 44349; his dam was the imported mare Daisy A. 49874. No better bred one to be found anywhere. This horse has shown himself to be a wonderful breeder and we would advise the men that want to raise the best mule mares or heavy draft horses to breed to this splendid young horse. He is 16 1/2 hands high and weighs 1850 pounds. Will give a free season to any man who will bring a mare to this horse that can show more knee and hock action than Rollo.

\$10.00 TO INSURE A LIVING FOAL

Ben Henry

The registered jack Ben Henry will also make the season at the same time and place at

\$10.00 TO INSURE A LIVING FOAL

Ben Henry was sired by the great Nicholas Duke 1441 dam by Big Ike, second dam by Yelberton. This jack is 15 1/2 hands high. None better in Kentucky.

Mark Hendrix 3820

At the same time and place this premium jack will make the season at

\$8.00 TO INSURE A LIVING FOAL

MARK HENDRIX is a black jack with white points, 15.1 hands high and an extra good breeder and sure foal getter. His mules won 1st and 2nd prizes for the best mules bred in the county at the last County Fair. There will be four jacks in this barn as good as can be found in any one barn in the State.

See this stock before you book your mares.

Grass furnished at 10 cents per day.

Money due when colt comes, mare parted with or bred to other stock without my consent.

Every care taken but not responsible for accidents or escapes.

CHARLES SMATHERS MAKING GOOD IN THE NAVY

Behind the huge guns of the battleship Michigan, somewhere on the Atlantic, Charles H. Smathers, of Mt. Sterling, is serving as a member of the United States Marines. He was transferred to the Michigan upon completion of his course of instruction at the Marine Corps training station, Port Royal, S. C. Charlie, who is a son of William S. Smathers, of this city, enlisted in the United States Marine Corps at its recruiting station, Akron, O., on Oct. 6, 1916, and has come rapidly to the front in the branch of the service known as the "Soldiers of the seas." He recently made an excellent score at "slow and rapid" fire, winning the badge of marksmanship and an increase of pay. Owing to the strict navy censorship, the exact whereabouts of the Michigan is unknown. It is safe to predict that the Mt. Sterling boy will make a good account of himself if the big dreadnaught should go into action.
